Security 2008: leading the way to value generation

In 2008, the flow of new regulations must question any Security professional: is securing still enough? What is the mission of Security? To help attendees to trace their way in a more and more complex world, IDC will highlight the key points of Security strategy. After Technical Security, IDC will provide key points for business transformation. IDC Points for actions will help attendees to stay focuses on real goals. Based on Internal research and expertise, this keynote will deliver realistic support for IT security professionals.
