

## Vincent P. Eavis

Director, Head of International Business Development & Sales, Citigroup, Global Transactions Services, Commercial Cards

### *Ottimizzazione del processo di Procurement per il Settore Pubblico: il case study Procurement Card per il Governo USA*

Electronic card payment tools, such as the Citibank Purchasing card, have revolutionised the way forward thinking corporations and government and public sector institutions pay for goods and services. Vince Eavis, Citigroup Commercial Card's head of international business development, will in this session illustrate how the Purchasing card helps organisations streamline the procure-to-pay processes reducing purchase related cost with up to 60-80% while saving 6-9 pieces of A4 paper per transaction in the process while guaranteeing payment to suppliers within a matter of days.
