

Fritjof Lind

Public Sector Director, CSC Denmark

Fritjof Lind is Director for CSC Denmark's Public Sector activities and has worked in the IT services industry since 1987. Fritjof Lind holds a masters degree form the University of Copenhagen.

His professional experience includes a number of senior management position in CSC's Danish organisation. The past 10 years include:

CSC Denmark, Director for CSC's Public Sector clients **2005 -**
Development and growth of CSC's eGovernment service offerings to the Danish marketplace in line with the government's strategy for how public sector services can be transformed into world class eGovernment services.

CSC Scandihealth, CSC Datalab A/S Managing Director **2003 - 2005**
Nordic Healthcare Vertical, Director

Development and growth of CSC Nordic Healthcare business in line with market requirements. Development and delivery of new proces driven Electronic Patient Record solutions.

CSC Denmark, Director and Account Executive for CSCs eGovernment Business 2001-2003

CSC's work and partnerships with Danish public institutions and agencies includes the transformation of public services into Internet based services to citizens and companies. This called for new CSC delivery skills, capabilities and service offerings making it possible for our clients to reengineer and transform their business.

CSC Denmark, Director of CSCs Healthcare activities i Scandinavia **2000 – 2001**

The growth in the Healthcare IT marked made CSC to decide to enter this new growing IT marked. Fritjof as Director and Account Executive was given the task to run the CSC Healthcare sales and activities in the Nordic region. He joined the bid team that acquired what became CSC Scandihealth.

CSC Denmark, Component Solutions Group, Director **1999 - 2000**
Director for a group of 60 highly skilled SW engineers and architects specialised in component and Web based solutions to CSC's public and private clients.

CSC Information Systems A/S, Managing Director **1997 – 1999**
The position of Managing Director of CSC Information Systems included the responsibility for CSC portfolio of standard products. The client portfolio covered 40 different public and commercial clients,

CSC Datacentralen, Marked Division II, Director

1996 – 1997

After the CSC acquisition of Datacentralen his task was to consolidate 2 of the 3 client divisions in CSC Datacentralen. Part of the CSC transition was implementation of CSC's account management and project management principles and the introduction of delivery best practises.
